Vanguard Engines | Briggs & Stratton

14 hp-23 hp Vanguards are all the same externally. 14 and 16 Hp are the same engine, just different carb jetting, and I believe the same is true of the 18 and 20 hp. I had a 20 hp Vanguard in my COOT last year, I pulled that engine and put it in another project, I now have a 14 HP Vanguard in the COOT, still has plenty of power. Cooling has never been an issue for me, but maybe it is because I am using a flywheel and shroud off a 16 HP vertical shaft engine.
