Poe's preference for not naming his narrators is potent once again in "The Tell-Tale Heart", a story that is trying so hard to appear sane, but fails miserably in the end. With minute preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfils his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe's most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).

Studying English Literature is a unique guide for undergraduates beginning to study the discipline of literature and those who are thinking of doing so. Unlike books that provide a survey of literary history or non-subject specific manuals that offer rigid guidelines on how to write essays, Studying English Literature invites students to engage with the subject's history and theory whilst at the same time offering information about reading, researching and writing about literature within the context of a university. The book is practical yet not patronizing: for example, whilst the discussion of plagiarism provides clear guidelines on how not to commit this offence, it also considers the difficulties students experience finding their own 'voice' when writing and provokes reflection on the value of originality and the concepts of adaptation, appropriation and intertextuality in literature. Above all, the book prizes the idea of argument rather than insisting upon formulaic essay plans, and gives many ways of finding something to say as you read and when you write, in chapters on Reading, Argument, Essays, Sentences and References.

This volume was written to make the case for changes in second language writing practices away from the five-paragraph essay and toward purposeful, meaningful writing instruction. As the volume editors say, "If you have already rejected the five-paragraph essay, we offer validation and classroom-tested alternatives. If you are new to teaching L2 writing, we introduce critical issues you will need to consider as you plan your lessons and as you consider/review the textbooks and handbooks that continue to promote the teaching of the five-paragraph essay. If you need ammunition to present to colleagues and administrators, we present theory, research, and pedagogy that will benefit students from elementary to graduate school. If you are skeptical about our claims, we invite you to review the research presented here and consider what your students could do beyond writing a five-paragraph essay if you enacted these changes in practice." Part 1 discusses what the five-paragraph essay is not: it is not a very old, established form of writing; it is not a genre; and it is not universal. Part 2 looks at writing practices to show the essay's ineffectiveness in elementary schools, secondary schools, first-year writing classes, university writing courses, undergraduate discipline courses, and graduate school. Part 3 looks beyond the classroom at testing. At the end of each chapter, the authors--all well-known in the field of second language writing--suggest changes to teaching practices based on their theoretical approach and classroom experience. The book closes by reviewing some of the major questions raised in the book, by exploring which questions have been left unanswered, and by offering suggestions for teachers who want to move away from the five-paragraph essay. An assignment sequence for genre-aware writing instruction is included.

Introduces basic concepts of paragraph writing, explains the essentials of paragraphs, and provides practice exercises.

"For anyone aiming to improve their skill as a writer, a new approach to establishing robust writing practices inside and outside the classroom"--
