An account of the origins of violence, its consequences, its uses, and the relationship between violence and democracy.

After two years, MAKE has become one of most celebrated new magazines to hit the newsstands, and certainly one of the hottest reads. If you're just catching on to the MAKE phenomenon and wonder what you've missed, this book contains the best DIY projects from the magazine's first ten volumes -- a surefire collection of fun and challenging activities going back to MAKE's launch in early 2005. Find out why MAKE has attracted a passionate following of tech and DIY enthusiasts worldwide with one million web site visitors and a quarter of a million magazine readers. And why our podcasts consistently rank in the top-25 for computers and technology. With the Best of MAKE, you'll share the curiosity, zeal, and energy of Makers -- the citizen scientists, circuit benders, homemakers, students, automotive enthusiasts, roboticists, software developers, musicians, hackers, hobbyists, and crafters -- through this unique and inspiring assortment of DIY projects chosen by the magazine's editors. Learn to: Hack your gadgets and toys Program microcontrollers to sense and react to things Take flight with rockets, planes, and other projectiles Make music from the most surprising of things Find new ways to take photos and make video Outfit yourself with the coolest tools Put together by popular demand, the Best of MAKE is the perfect gift for any maker, including current subscribers who missed early volumes of the magazine. Do you or someone you know have a passion for the magic of tinkering, hacking, and creation? Do you enjoy finding imaginative and unexpected uses for the technology and materials in your life? Then get on board with the Best of MAKE!

One father, his children, and the loving life they share as a family. . . . Like all parents, Jorge Ramos is concerned about how his two children are absorbing the world around them. A loving and thoughtful father though he is, he wonders if he has done enough to prepare them for the future. He questions if they know enough about him as a person, and the family to which they belong. The Gift of Time is a moving and personal book in which one father reflects upon the world we live in and shares his love for his children in a series of letters that touch on everything from love and divorce to soccer and e-mail. Through his experience as a journalist who has seen both the horrors and the greatness that people are capable of, he offers his children the sound advice they need not only to live but to thrive in today's world. In a heartfelt and direct tone that has gained him the love and admiration of millions of fans across the country, Ramos writes about the issues that plague every parent's mind. In The Gift of Time, Ramos speaks both to his children and to the future generations of Americans on what they can expect, and what is expected of them, as they embark on their journey toward adulthood.

Shares recipes, games, and ideas for things to make, including box engines, conductor's hats, suitcases, train whistles, and railroad lanterns

POST-REFERENDUM EDITION OF THE SUNDAY TIMES BESTSELLER, WITH A NEW PREFACE. 'Confused about the EU referendum? In the dark about which way to vote? Daniel Hannan's invaluable vade mecum will illuminate the whole question, showing why voting to leave is a leap back into the light' Boris Johnson. 'Powerful, intelligent, hard-hitting, well-written ... absolutely required reading for every Briton who is considering voting on 23 June' Andrew Roberts. MEP and award-winning political writer Daniel Hannan argues for a British exit ahead of the coming referendum. Hannan demonstrates that the EU is past its sell-by date, rendered obsolete by technological advances, shrinking economically and less relevant to our economic needs than ever. Worse than that, he shows that the EU can't reform, can't be democratic and can't be divorced from its goal of ever-closer political union. Staying in does not mean staying the same and a vote to leave - far from being the risky choice - is actually the safe one. Finally, Hannan argues that Britain doesn't have to stay in the EU to remain at the heart of Europe and considers the global role a confident nation freed from EU strictures could play. 'Before voting in this historic referendum you should read this brilliant book. If you've decided to vote Leave this will enthuse you, if you're not yet sure, it will convince you' Michael Gove. 'A "must read" for anyone who is surprised that so many of us now want to leave the EU' Lord Owen. 'I defy anyone who is undecided on the EU to read this book and not be a convinced Leaver. The case against EU membership is not Left-wing or Right-wing: it's democratic. Daniel Hannan shows how bright the UK's future will be once we leave behind the corporatist racket in Brussels' Kate Hoey. 'The perfect book for someone who wants to hear a calm, clear set of reasons for leaving the EU' Baroness Jones. 'When it comes to the EU Dan Hannan has forgotten more than most people ever knew. He knows it from the inside, deep inside. He knows the venality, the incompetence, the bloated budgets and salaries, the many failures cynically covered up. He knows the staggering sums dragged from the pockets of the British taxpayer and the miserable return we get from them. The Brussels-worshipping brigade would be very wise not even to try to contest the points he makes in this book. For the rest of us it's an eye-opener' Frederick Forsyth. 'The case against the EU should be made in positive, optimistic and internationalist terms. Daniel Hannan has done us a favour by making the democratic and economic case for independence. If you're undecided, this book might surprise you' Helena Morrissey.

"I think we need a new crystal for this thing." --Scanner guy from the 70sScanners were a lot simpler in decades past, when everything was analog, had a fixed frequency, and was unencrypted.Nowadays, we have those old analog stations as well as digital, trunking systems, protocols, sites, talk groups, and who-knows-what coming down the road for next year. There are a lot of frequencies, systems, groups, codes, and little nit-picky details that have to go into our radios before we can even pick up a single call.On the other hand, radios continue to get more and more powerful, and unfortunately, more complicated to handle all the new options. This doesn't make programming them any easier. Fortunately, we have computers to handle all the programming stuff for us. Just hook the radio up to the computer, find your location on a website, transfer the frequency and channel data into the radio, and you're good to go. Sounds simple, doesn't it?If you've tried to program a digital trunking system, you know how complicated these things can get, and just how unhelpful the manuals can be. Wouldn't it be nice to just have someone go through the process and just "get the damned thing working" without all the theory?Fortunately, there are a combination of tools that you need to master to even begin. FreeSCAN is free software that works with a large number of common scanners and works for both analog and digital systems. FreeSCAN even has tools to import and set up all the frequencies automatically. If you're already comfortable programming digital trunked systems through the number pad, or have no trouble working with whatever software came with your radio, then maybe this book isn't for you. If you aren't good with computers, or you're having trouble with the basic process, don't know the difference between a talk group, site, and system, or are otherwise pulling your hair out trying to get your radio programmed, then this book is for you! We'll walk through getting the software installed and set up, connecting your radio with an appropriate cable and communications port, reading data from the radio, downloading and fine-tuning new frequency data, setting quick keys and locking out extraneous frequencies, and writing that data back out to the radio.

This full-color title is designed to be a classic reference for the millions of photographers going to digital, from enthusiasts shooting family events and vacations with their SLRs, to professionals creating journalistic prints and fine art. It's the only book on the market with a focus on complete, end-to-end workflow from shoot to print. It's tied to Adobe's latest version of Photoshop, which boasts an installed base of 4 million! Serge Timacheff is a professional photographer living in Pacific Northwest. He is the official photographer for the International Fencing Federation, based in Lausanne, Switzerland, and he photographs fencing at World Championships and the Summer Olympics. His 100-percent digital studio provides portraiture, event, commercial, and boudoir photography, and his fine art photographs appear in galleries and individual collections worldwide. David Karlins is a digital imaging expert, Web designer, teacher, consultant and author of numerous books and magazine articles.

In False Dawn, noted Middle East regional expert Steven Cook offers a sweeping narrative account of the past five years, moving from Turkey to Tunisia to Yemen to Iraq to Egypt and beyond, ultimately presenting a powerful theoretical analysis of why the Arab Spring failed.

Life's been many things for twenty year old Bryn Dawson, but one thing it's never been is easy. And it's only about to get harder. As the gossip of Bryn being Betrothed to her true love's little brother, Patrick, becomes more reality than rumor, Bryn does her best to think positive thoughts, ignore Patrick's odd behavior, avoid Paul's relentless advances, and attempts to conjure William back from his latest overseas mission. She fails on all fronts. The night an army of inheritors set out with an agenda to deliver vengeance on any Guardian surrounding Bryn, the Betrothal Ball becomes the least of her worries. Instead of worrying about who she'll be marching down the aisle towards, she has to accept she might not be making the journey down the aisle ever.

"A warm hearted story of the inevitable rollercoaster of romantic love... and the more important task of loving one's self" from #1 international bestselling author Cathy Kelly (Elin Hilderbrand). At the top of the Eiffel Tower, a young man proposes to his girlfriend. In that second, everything changes, not just for the happy couple, but for the family and friends awaiting their return in Ireland. Laila's been nursing a broken heart since her husband suddenly left her, but she's determined to put on a brave face for the bride. Vonnie, a widow, has finally dared to let love back into her life, but a curveball arises that puts another's safety at risk. And Grace, a school principal, finds that her son's impending union brings her ex-husband back into her daily life, and starts to ponder past decisions and wonder if her divorce was in fact a mistake. As these three women gather around the young couple to prepare for the wedding, they'll each have to address their own demons and find a way to move forward, whatever the cost. *Includes reading group guide
