utterly transformed. Through the most efficient scientific and psychological engineering, people are genetically designed to be passive and therefore consistently useful to the ruling class. This powerful work of speculative fiction sheds a blazing critical light on the present and is considered to be Aldous Huxley's most enduring masterpiece. The nonfiction work *Brave New World Revisited*, first published in 1958, is a fascinating work in which Huxley uses his tremendous knowledge of human relations to compare the modern-day world with his prophetic fantasy envisioned in

future of the human race. Huxley's most famous work, Brave New World takes the principles of consumerism and mass production to the extreme in the high-tech dystopian future which he imagined was in store for humanity. In Island, written as a counterpart to Brave New World, Huxley offers an oppositional view: the idea of a utopian society where personal desire and social norms exist in perfect harmony. Lastly, this volume contains Huxley's essay Brave New World Revisited , which re-evaluates humanity's decline towards the dystopian future Huxley imagined in Brave New World

Wandering into Brave New World explores the historical contexts and contemporary sources of Aldous Huxley's 1932 novel which, seventy years after its initial publication remains the best known and most discussed dystopian work of the twentieth century. This new study addresses a number of questions which still remain open. Did his round-the-world trip in 1925-1926 provide material for the novel? Did India's caste system contribute to the

the character of Bernard Marx doesn't feel like an adult. These themes are most present in chapter 6, but to present the whole topic, I will also quote from other chapters. First of all, I will need to quickly introduce to you the perception of character and individuality in BNW. One quote summarises it all: "'Characters remain constant throughout a whole lifetime'", (p.80, ll. 1,2). But how is this character achieved in the first place, if there's no development? - Only through conditioning! The character is made! It's artificial, yet we cannot deny that it's there. Therefore the question should rather

be: Can a character that doesn't evolve be real? Aren't development or simply change it's most important aspects? We would immediately know, what to answer, but to the inhabitants of Brave New World, even the question must seem ridiculous, because they do not celebrate individuality. Even the Alphas only have a limited amount of free will and they do not differ much from each other, neither in appearance, nor in personality. This is because their aims are all alike. As the examples of Bernard and Helmholtz show (who are both considered exceptional individuals), individuality is a

mere nuisance to those living in BNW. This may be due to the fact that character has no influence on life whatsoever career and social activities are imposed on them and there is no room for choice according to one's likings. Also, to others, character doesn't matter, only the ability to consume happiness is of importance. The individualist part of the human nature is completely denied as the following quote shows: "[...] for doing things in private. Which meant, in practice, not doing things at all.", (p.116, 11.5f).

This study of an extraordinary work of dramatic literature also addresses questions of the nature and dissemination of the scientific revolution. These facets are locked together: although the book does not deny that 'The Tempest' had deep roots in classical literature and elsewhere, it maintains that the play's remarkable dramaturgy and symbolism reflect subtle matters uniquely pertinent to its own fascinating time. A 'Brave New World of Knowledge' uncovers a number of previously little-appreciated connections of 'The Tempest' with specific problems or advances

of knowledge, thus showing that the play reflected innovative proto-scientific modes of confronting the physical, biological, and human realms. It also argues that Shakespeare's play mirrored a new tendency to repudiate earlier Renaissance dreams of achieving omniscience and omnipotence. The play reflected a newer hope for knowledge based on speculative boldness linked with close observation, rational and sober precision, and a radical capacity to accept limitation and not-knowing.
