Barron's SAT Vocabulary Flash Cards is a test prep tool that presents 500 SAT high-frequency words, selected because they have appeared as key words in recent SAT reading passages and critical reading questions. Cards are alphabetically arranged in the box, with an extra place-marker card that students can use to gauge their word-learning progress. This vocabulary building flash card set enables SAT test takers to review words they might already know, as well as to master unfamiliar words they are likely to encounter both on the SAT and in their college courses.

Beginning in 2005, the SAT is implementing major revisions, including: ? New reading sections? Analogies removed? Multiple-Choice Grammar and Usage Questions ? Modified Reading Questions. Vocabulary Power Plus for the New SAT addresses all of the revisions in the test without vocabulary studies. Students will benefit from: ? Focused prefix, suffix, and root practice? isolation. When you create the picture, make sure it meets one or more of the following criteria so that it 'sticks'. OUT OF PROPORTION - In all your images, try to distort size and shape. You can imagine things much larger than their normal size or conversely, microscopically small. SUBSTITUTION - You could visualise footballers kicking a television around a football pitch instead of a football, or pens growing on a tree instead of leaves. Substituting an out of place item in an image increases the probability of recall. EXAGGERATION - Try to picture a very large quantity in your images. MOVEMENT - Any movement or action is always easy to remember. HUMOUR - The funnier, more absurd and zany you can make your images, the more memorable they will be. Applying multiple combination of these five principles when forming your images will help make your mental associations truly outstanding and memorable. At first, you may find that you need to consciously apply one or more of the five principles in order to make your pictures sufficiently ludicrous. After a little practice however, you should find that applying the principles becomes an automatic and natural process. Some UNIQUE features of this book; -All the hard work done for you. Over 200 words converted into pictures utilizing the concepts above! -Focus on words likely to appear in the 11 plus Exam -Synonyms/Antonyms and sentences for EACH word - Over 1500 high frequency 11+ words in total!
