This comprehensive, practical book provides guidelines, strategies, and procedures for preventing and addressing challenging behavior in school settings. The authors take theoretical and often technical information and present it in an easily understood, applicable manner. The functional assessment and intervention model described in the book is a positive and proactive, team-based approach that has been used to prevent and remediate challenging behavior in school, community, and home settings. Readers learn how to conduct behavior assessment that helps them identify the variables that set the occasion for challenging behavior to occur, and that supports challenging behavior after it has occurred. Assessment information is then used to identify the function of challenging behavior and to develop positive interventions that address it, and that teach and support appropriate

behaviors to replace challenging behavior.

YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she

blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.
