Charles C. McDougal lived in Asia for twenty years, including ten years in the Philippines from 1972 to 1982. His impeccable research stems from an academic background whose credentials include a bachelor of science degree from the University of Georgia, a master's degree from the Asian Institute of Management, and a doctorate in business from the University of the Philippines. The data he gathered for his doctoral dissertation was the genesis of his 1987 book "The Marcos File", which exposed the Marcos regime for its corruption and excesses. It was while working on a book about Marcos' hidden wealth that he stumbled on the story of a treasure hunt headed by Marcos. His close friendship with the national security director provided him access to the corridors of power. He was asked to find out the truth, both about the legendary treasure and the Marcos gold. His academic credentials, plus his military background-- he was a captain in the Green Berets in Vietnam-- made him a natural choice. He returned to the Philippones. A cave-in killed two of his men and overnight this top-secret operation made the front page of almost every major newspaper in the world.

The Lily of Life: A Fairy Tale by The Crown Princess of Roumania. First published by Hodder & Stoughton, London; New York, 1913. "Graceful fancy, elevated sentiment, and simple but dignified expression ensure a high place among the fairy tales of the publishing year for the Queen of Roumania's charming work, The Lily of Life.... The merit of the telling is unusual, and it has the further advantage of being presented in an exceedingly handsome and artistic form. The coloured illustrations of Miss Helen Stratton show graceful drawing and fine gradations of tone. They are not merely a pictorial summary of the story, but genuine works of art, and a distinctive feature of the volume."-Scotsman

Leonard Meldert's Primo libro de madrigali a cinque voci (Venice, 1578) has an interest and musical quality far beyond what one might guess from the modest facts of the author's life and works. The book partly reflects the musical tastes of the court of Urbino in the final years of Duke Guidobaldo II Della Rovere (1514-74) and of the private household of his brother, Cardinal Giulio Della Rovere (1533-78). But its structure and contents display some unusual features that can be linked to the circumstances of Meldert's life and to his own initiative in projecting and assembling his book of madrigals. Moreover, it offers the first settings of then-recent poems by Torquato Tasso, Giovanni Battista Guarini, and Giuliano Goselini, the result of the composer's personal contacts in the court of Ferrara and his ties to the literary and musical circle of Antonio Londonio, a Milan-based Spanish diplomat. This edition presents the Primo libro for the first time in a modern edition, examining Meldert's textual choices and musical style within the contexts of courtly life, his personal biography, and the nascent seconda prattica.
