How people around the world grapple with the great questions posed by Socrates. What is virtue? What is moderation? What is justice? What is courage? What is good? What is piety? Socrates thought that understanding the perspectives of others on these six great questions would help him become a more excellent human being. Following in Socrates's footsteps, Christopher Phillips—"Johnny Appleseed with a master's degree" (Utne Reader)—investigates these same questions, beginning in the marketplace of modern-day Athens. He goes on to investigate the timely responses and outlooks of people from different cultures and backgrounds around the world: from Greece and Spain to Japan and Korea, Mexico City, and Chiapas, where the region's indigenous people struggle for fundamental human rights. Phillips also traveled throughout the United States, holding dialogues in diverse communities from New York City to the Navajo Nation. Introducing us to less familiar thinkers in non-Western traditions who were kindred spirits of Socrates, Phillips enlarges our perspectives on life's fundamental questions, creating an innovative world survey of philosophy.

perspectives on life's fundamental questions, creating an innovative world survey of philosophy.

Explores the various ways in which people around the world interpret six questions originally posed by the ancient Greek philosopher Socrates, including their diverse interpretations of virtue, moderation, justice, courage, good, and piety.

"A bracing, rollicking read about the spark that ignites when people start asking meaningful questions." —O Magazine Christopher Phillips is a man on a mission: to revive the love of questions that Socrates inspired long ago in ancient Athens. "Like a Johnny Appleseed with a master's degree, Phillips has gallivanted back and forth across America, to cafés and coffee shops, senior centers, assisted-living complexes, prisons, libraries, day-care centers, elementary and high schools, and churches, forming lasting communities of inquiry" (Utne Reader). Phillips not only presents the fundamentals of philosophical thought in this "charming, Philosophy for Dummies-type guide" (USA Today); he also recalls what led him to start his itinerant program and re-creates some of the most invigorating sessions, which come to reveal sometimes surprising, often profound reflections on the meaning of love, friendship, work, growing old, and others among Life's Big Questions. "How to Start Your Own Socrates Café" guide included.

This unique and expertly annotated collection of the classic accounts of Socrates left by Plato, Aristophanes, and Xenophon features new translations of Euthyphro, Apology, Crito, and the death scene from Phaedo by C. D. C. Reeve, Peter Meineck's translation of Clouds, and James Doyle's translation of Apology of Socrates.

This is a major reinterpretation of ancient philosophy that recovers the long Greek and Roman tradition of philosophy as a complete way of life--and not simply an intellectual discipline. Distinguished philosopher John Cooper traces how, for many ancient thinkers, philosophy was not just to be studied or even used to solve particular practical problems. Rather, philosophy--not just ethics but even logic and physical theory--was literally to be lived. Yet there was great disagreement about how to live philosophically: philosophy was not one but many, mutually opposed, ways of life. Examining this tradition from its establishment by Socrates in the fifth century BCE through Plotinus in the third century CE and the eclipse of pagan philosophy by Christianity, Pursuits of Wisdom examines six central philosophies of living--Socratic, Aristotelian, Stoic, Epicurean, Skeptic, and the Platonist life of late antiquity. The book describes the shared assumptions that allowed these thinkers to conceive of their philosophies as ways of life, as well as the distinctive ideas that led them to widely different conclusions about the best human life. Clearing up many common misperceptions and simplifications, Cooper explains in detail the Socratic devotion to philosophical discussion about human nature, human life, and human good; the Aristotelian focus on the true place of humans within the total system of the natural world; the Stoic commitment to dutifully accepting Zeus's plans; the Epicurean pursuit of pleasure through tranquil activities that exercise perception, thought, and feeling; the Skeptical eschewal of all critical reasoning in forming their beliefs; and, finally, the late Platonist emphasis on spiritual concerns and the eternal realm of Being. Pursuits of Wisdom is essential reading for anyone interested in understanding what the great philosophers of antiquity thought was the true purpose of philosophy--and of life.

Written around 380 BC, The Republic work is an important contribution to the age old question of how to best structure a society in a just way. Presented in the form of a dialogue between Socrates and three different interlocutors, it is an enquiry into the notion of a perfect community and the ideal individual within it. It is considered Plato's best-known work and has proven to be one of the most intellectually and historically influential works of philosophy and political theory. One of the most important books ever written on the subject of philosophy and political theory. An essential read for any student of philosophy or political science.
