The roulette software "Rouletronic" is a highly advanced platform that allows you to achieve spectacular financial results while playing roulette. The roulette software "Rouletronic" makes it possible to recognize and use trends that naturally occur on individual numbers and to intelligently group them. It is a completely new approach to random events unheard of in any other software of this type. The platform also allows you to map the roulette graphic interface and thus fully automate the game, including reading the drawn numbers.

This book constitutes the thoroughly refereed post-conference proceedings of the 13th Brazilian Symposium on Formal Methods, SBMF 2010, held in Natal, Brazil, in November 2010. The 18 revised full papers were carefully reviewed and selected from 55 submissions. The papers presented cover a broad range of foundational and methodological issues in formal methods for the design and analysis of software and hardware systems as well as applications in various domains.

One of the great aircraft of the Cold War era, the McDonnell Douglas F-4 Phantom II was the most heavily produced supersonic, all-weather fighter bomber. Capable of a top speed of Mach 2.23, it set sixteen world records including an absolute speed record of 1,606 mph and an altitude record of 98,557 feet. The F-4 flew Vietnam, in the Arab-Israeli conflict, and the Gulf War and amassed a record of 393 aerial victories. F-4s also flew as part of the USAF Thunderbirds and the U.S. Navy Blue Angels flight demonstration teams. Originally printed by McDonnell and the U.S. Navy in the 1960s, this flight operating handbook taught pilots everything they needed to know before entering the cockpit. Classified "restricted", the manual was recently declassified and is here reprinted in book form. This affordable facsimile has been reformatted. Care has been taken however to preserve the integrity of the text.

The Boeing B-29 was one of the most sophisticated aircraft of WWII. It featured many innovations including guns that could be fired by remote control and pressurized crew compartments. It was also the heaviest production plane of the war with terrific range and bomb carrying capabilities. Carrying a crew of ten, the Superfortress devastated Japan in a series of gigantic raids in 1944-45. In the end it would be the B-29s "Enola Gay" and "Bock's Car" that dropped the atomic bombs and effectively ended the conflict. Originally printed by the United States Army Air Force in January of 1944, the B-29 Bomber Pilot's Flight Operating Manual taught pilots everything they needed to know about the "Superfort" Originally classified "Restricted", the manual was declassified long ago and is here reprinted in book form. This affordable facsimile has been reformatted, and color images appear as black and white. Care has been taken however to preserve the integrity of the text.
