This guide is intended to give suppliers, employers, workers and regulators a basic understanding of Workplace Hazardous Materials Information System (WHMIS), and to direct readers to more comprehensive information, if needed. Chapters 1 and 2 give an overview of WHMIS and the relevant legislation. Chapter 3 outlines the federal WHMIS legislation and the duties of a supplier of hazardous materials intended for use in the workplace. Chapter 4 is the focus of the guide. It explains Ontario's WHMIS legislation and the duties of an employer in charge of a worksite where hazardous materials are used. Chapter 5 briefly describes the rights and responsibilities of the worker. Chapter 6 deals with two specific applications of WHMIS, namely, the requirements for laboratories and for construction projects. Chapter 7 describes how confidential business information is protected under WHMIS. Chapter 8 compares WHMIS and the Transportation of Dangerous Goods legislation. Chapter 9 explains the enforcement of the WHMIS legislation. Chapter 10 is a collection of frequently asked questions and answers about WHMIS. The questions are based on actual inquiries made to the Ministry of Labour and are intended to illustrate specific workplace problems and solutions.--Document.

This latest version of Information Resources in Toxicology (IRT) continues a tradition established in 1982 with the publication of the first edition in presenting an extensive itemization, review, and commentary on the information infrastructure of the field. This book is a unique wide-ranging, international, annotated bibliography and compendium of major resources in toxicology and allied fields such as environmental and occupational health, chemical safety, and risk assessment. Thoroughly updated, the current edition analyzes technological changes and its rife with online tools and links to Web sites. IRT-IV is highly structured, providing easy access to its information. Among the “hot topics covered are Disaster Preparedness and Management, Nanotechnology, Omics, the Precautionary Principle, Risk Assessment, and Biological, Chemical and Radioactive Terrorism and Warfare are among the designated. • International in scope, with contributions from over 30 countries • Numerous key references and relevant Web links • Concise narratives about toxicologic sub-disciplines • Valuable appendices such as the IUPAC Glossary of Terms in Toxicology • Authored by experts in their respective sub-disciplines within toxicology
